Grandview Corners Dental Donates \$35,000 Smile Makeover to Contest Winner

Surrey's Grandview Corners Dental is delighted to announce that the winner of its Smile Makeover Contest has taken her smile – and her life – to a whole new level.

Through a series of treatments performed by Grandview Corners Dental's Dr. Francisco Leos-Marquez and Nova Dental Labs, contest winner Verna Dick received a full-mouth reconstruction that dramatically restored her worn-down and missing teeth, and fixed broken dental work. The final treatment was complete in December -- just in time for Verna to show off her new, radiant smile over the holiday season.

And that's not even the best part. Given the amount of reconstructive and cosmetic dental work needed to repair Verna's smile, the final bill came to \$35,000 – but she didn't have to pay a cent. The transformative work was courtesy of Grandview Corners Dental and Nova Dental Labs, who wanted to give something back to the community by offering a local resident a once-in-a-lifetime opportunity to turn a smile they feared to share, into the smile of their dreams.

Reflecting on the moment that Verna saw her beautiful new smile for the first time, Grandview Corners Dental's Office Manager Anne Desrosiers noted: "It was very emotional. When we handed Verna the mirror to have a look at her new smile, she started crying, which in turn made the rest of us teary-eyed. After 20 years of not smiling and covering her mouth when she talked, she's now proud to show off her new smile! It's so gratifying that the team here at Grandview Corners is a part of Verna's new, happier and more confident life."

To this Dr. Leos-Marquez added: "Verna's smile makeover process was an experience that we hope everyone will find as inspiring and uplifting as we do. We want people to grasp that the best things in life start with a smile, and that getting the smile of their dreams – even if they have a smile they really dislike –

isn't merely possible, but it's easier, quicker, and more comfortable than they could possibly imagine."
